

# CHILD PROTECTION E-LEARNING

Our new online learning modules make it easier than ever to equip your staff with vital child protection skills

## Key Topics

Our courses provide the perfect introduction to core child protection topics including **child sexual abuse, neglect, domestic and family violence, protective behaviours, trauma in childhood, and quality mandatory reporting.**

Learn about the indicators of sexual abuse, risk factors for neglect, how to respond to disclosures and so much more.

## Engaging Content

Children flourish when they feel safe and supported. That's why we have designed our courses to be engaging and accessible for any adult who may come in contact with kids. Each module includes interactive multi-media learning and easy to understand assessments throughout.

## Self-Paced Learning

Our cost-effective online courses are self-paced and scalable - allowing your team to learn whenever suits them and whatever your budget.

Certificates available upon completion!
